

ADHD Assessment Process with Unique Neuro Wellness Ltd

Understanding the Stages

Stage 1 – There is no cost to you at this stage

Stage 2

- If we think an assessment would be beneficial and you agree to go ahead we will send you an invoice
- This needs to be paid in full or a payment plan agreed with us before we will commence the assessment

Stage 3

- Next we will arrange the dates and times for the 2 main assessment sessions with you
- The first will be an Qb assessment which is usually a face to face session with one of our clinicians (If we are unable to complete this face to face we can arrange an assessment online)
- The next will be an 'interview' with the parent/ carer if a young person is under the age of 18 or with yourself and a family member/ partner or friend who knows you well if you are over 18 years of age
- if we feel it may help the assessment process we may also ask to complete a school observation in the case of child under 16.

Stage 4

- Once we have completed the assessments we will write our reports
- The reports will then be shared with the clinicians involved and the multi disciplinary team if we think it is necessary in order to make a decision
- At this point we will decide if a diagnosis is the right thing

Stage 5

- We will then complete our report which shares with you the outcome
- You will still get a report and some signposting and support even if you do not get a diagnosis
- We will then arrange a feedback meeting with you to share the report and any diagnosis if it is given (this is usually online and lasts about half an hour)
- You can ask any questions you like at this outcome meeting

Stage 6

- You will then be sent the report via email and it can be shared with your school/ doctor or anyone you ask us to.
- You can then come back to us for a further half an hour support session if you think of any questions or support you might like once you have read the report properly and had time to process it.

As part of your report, you may also get one or more of the following to help and support you...

A One-Page Profile

A Communication Passport

A Sensory Profile

A Health Passport

We hope this helps you to understand the process but if you have any more questions, please don't hesitate to get in touch with us at info@uniqueneurowellness.com
